INTRODUCTION

Leader Cat is a Community driven meme token. The goal is to be the leader and manage all meme tokens with a strong community. Leader Cat meme token is a groundbreaking project. Imagine a meme token managed by the community. The project also includes Staking and Ambassador program, so its marketing is very strong.

The team does not hold tokens and locks them. \$LEADERCAT is a very secure token. Audit score is 90. INFI MultiChain CDEX supports Leader Cat

Community-Driven

Leader Cat is a Community Driven meme token its goal is to be the best meme token and it will achieve this with its strong community.

How will this system work?

For example, Developer will open a poll to ask whether we should list on an exchange and the community will decide on this, this is one of the simplest examples.
